Calabasas, CA 91302

Dear Mr. Stansen,

I want to thank you for the service you provide to DTS. As the Chief Operations Officer, I was concerned with the time and expense associated with housing and archiving the files for our clients that have completed their program with us. We were constantly purchasing new file cabinets and looking for a place to put them. Our file clerk was spending countless hours maintaining these files and expanding the space to store them.

We knew there was a service that could scan and store our data. What we didn't realize is that there was a service such as yours, paperlessUSA, Inc., that would come and spend time with us to "customize" a method to our particular needs.

I personally appreciate the time you spent getting to know our procedures, listen to our needs, and then design an easy to use program that allows us access to our closed files. Every one of the employees in our office that has a need to access these files finds your program easy (and fun!) to use.

Thank you, once again, for making our work so much easier. DTS will certainly recommend paperlessUSA. Inc. to anyone we know could use your services.

Sincerely,

Gerri Askren
Chief Operations Officer
