How Your Loan Amount Can Change

- If your Minimum Payment is less than the Interest Only Payment:
- Your monthly Minimum Payment will not be enough to cover the interest due.
 - The interest due, which is not covered by your Minimum Payment, is known as Deferred Interest and will be added to the amount you owe on your loan. Your Principal balance will then increase, which is known as "Negative Amortization".
 - Negative Amortization results in reducing the amount of equity you have in your home. Negative Amortization should be managed carefully, so that you are not surprised by significant increases in future Minimum Payments.
